EDUCATION

- **Bachelor of Technology (B.Tech), [Computer Science & Engineering]**

Batch: 2023-2027

SRM Institute of Science and Technology

CGPA :- 8.32 / 10

- **Higher Secondary Education**

Batch: 2023

Suraj Bhan D.A.V. Public School

SKILLS

- **Programming Languages:** C++, Python, JavaScript, PHP, HTML, CSS
- **AI/ML:** LangChain, FAISS, RAG, Agentic AI, Gemini API, Gemini Embeddings, TensorFlow/Keras
- **Databases:** SQL, MongoDB
- **Frameworks:** React.js, Node.js, Express.js, Redux, Tailwind CSS, Streamlit

PROJECTS UNDERTAKEN

- **DocuMind AI:** Built a production-grade Agentic RAG system using Python, LangChain, FAISS, and Gemini supporting chat with PDFs, websites, and YouTube videos. Implemented 3 Agentic AI layers (Clarification, Self-Reflection, Confidence Adaptation), Document DNA fingerprinting, Doc vs Doc Comparison with dual vector retrieval, chronological Timeline Extractor, Smart Flashcard Generator, and 5 one-click automation tools.
- **TaskFlow:** Developed a full-stack system using MERN and RESTful APIs. Implemented JWT based authentication and role-based access for admin and employees. Designed MongoDB schemas for multi-user task assignment and sub-task tracking. Built interactive dashboard with real-time task updates and integrated task-level chat using Socket.IO for seamless collaboration. Optimized API performance, improving task resolution efficiency by 70%.
- **Blogify:** Developed an AI-powered blogging platform using MERN stack and Gemini API, integrating LLM-driven text generation pipelines. Auto blog generation using Gemini API, reducing blog creation time by 50%. Integrated text generation and media handling using ImageKit, enabling image upload with auto generated description.
- **Brain Tumor Classification using CNN (Research Paper - Taylor & Francis, Under Publication):** Developed a deep learning model using TensorFlow/Keras and CNN to classify brain tumor MRI images. Applied Grad-CAM heatmaps for model explainability, achieving 86.1% accuracy.

EXPERIENCE

Pro Sport Development, Delhi (Web Designer Intern)

Oct 2025 – Present

- Designed and optimized website interfaces by implementing responsive layouts, improving navigation, and enhancing overall usability, resulting in a more engaging and user-friendly experience.
- Developed and customized web components using PHP, HTML, CSS, and JavaScript while collaborating on CMS management and performance testing to ensure seamless functionality and scalability.

Airports Authority of India , Delhi (Full Stack Developer Intern)

Jun 2025 – Jul 2025

- Developed a full-stack Office-Task Management System for AAI using the MERN stack with role-based dashboards, JWT authentication, real-time task tracking, and integrated task level chat using Socket.IO.
- Built RESTful APIs, optimized database queries, and utilized Git, Postman, and Agile practices.

Inland Waterways Authority of India , Noida (IT Intern)

Jun 2024 – Jul 2024

- Assisted I.T. team in monitoring network systems, updating database records, and maintaining digital platforms used for national inland waterways operations.
- Supported system administration tasks, basic network troubleshooting, and project data tracking, gaining hands-on exposure to government-scale IT infrastructure.

EXTRA-CURRICULAR & LEADERSHIP

- Serving as Athletics Team Captain, leading 8+ athletes and organized 3+ inter-college sports events.
- Led and coordinated 5+ major events for the college cultural fest as a core member of cultural and tech clubs, collaborating with cross-functional teams to successfully plan and execute activities.
